

REACH LEGISLATION

NICKEL

Section 27 of Annexe XVII imposes restrictions on the use of nickel in jewellery. All materials sold are required to pass the testing requirements of BS EN1811:2011

All materials sold by Palmer Metals are compliant with this requirement.

LEAD AND CADMIUM

The presence of Cadmium in jewellery is restricted to 0.01% by weight.

From October 9th 2013 the lead content of jewellery must be under 0.05% by weight.

All materials sold by Palmer Metals are compliant with these standards.
